

CZAR FEARS A GENERAL WAR

Wants To Know the Attitude of the United States Regarding the Situation.

THINKS FAVOR IS TOWARD JAPAN

His Ministry Is Much Worried Over the Possible Part Uncle Sam Might Decide to Play in the War Game.

Washington, Jan. 20.—Russia will make inquiry soon of the state department as to the attitude of this government toward the differences of Russia and Japan in the far East.

Ordinarily the position of the United States would not be questioned, but the news from Tokyo shows that Japan considers herself possessed of the moral support of America. The statement has been published, without contradiction in Washington, that there exists "a most kindly feeling for Japan in official government circles," and that, so far as personal feeling goes, Japan will have the best wishes of high officials should she go to war with Russia.

Irritates the Czar.
It is stated by St. Petersburg dispatches this has created a feeling of irritation toward the United States at the Russian capital. Russia considers that the desire of the Czar for peace and his efforts to avert war are handicapped by this representation of America's position. The Japanese minister has called at the state department frequently of late. He keeps his government closely advised of the state of public feeling here. He is naturally the most prolific source of the Japanese foreign office's information on this subject. The tone of his cables to Tokyo is evidently reflected in Japanese confidence of the moral support and silent official sympathy of this government.

Russians Complain.
Just after the American-Chinese commercial treaty was ratified, government officials and diplomats agree that the United States ran no danger of being involved in the far eastern conflagration if its attitude was quiet. Since then scarcely a day has passed but there has been a note of complaint from St. Petersburg about what the state of American official and public feeling is reported to be.

ST. LOUIS HAS A BIG WALK-OUT

Eight Hundred Cab Men in the Mound City Quit Work This Morning.

[Special by Scripps-McLae.]
St. Louis, Mo., Jan. 20.—A general strike of eight hundred liver drivers was inaugurated this morning. They demand recognition of the union, \$12.50 per week, twelve hours to constitute a day's work, and time and a quarter for over time.

MINERS FORCED CAPTAIN TO OBEY THEIR ORDERS

Striking Trammers Compelled Him to Order Men From the Mines. Company Had Reduced Wages.

[Special by Scripps-McLae.]
Houghton, Mich., Jan. 20.—"Call up the men or we'll throw you down the shaft."

This was the ultimatum given by 200 striking trammers of the Quincy mine to the captain in charge at the Mesnard shaft, the only part of the mine in operation, when they demanded that the men be called up and the engines shut down.

The captain refused at first, but was notified that if the miners were not up by a specified time the strikers would throw him down the shaft. The engineers also were threatened, and as a result all the miners were brought up.

Cause of Trouble.
The trouble was caused by the company's lowering trammers' wages \$5 a month because of the introduction of an electric tramping system, the change in wages being made without notification to the employees. The entire mine is now closed down, surface work also being suspended. The Quincy mills will also close for lack of rock. The sheriff and deputies are guarding the company's property.

Fully One-Third of the Anthracite Unions Have Not Paid Up.
Indianapolis, Ind., Jan. 20.—At the opening of the convention of the

An interchange of views covering the whole situation, will soon take place between Count Cassini and Secretary Hay, and it is expected to clarify the international atmosphere and cement Russo-American relations.

OIL ON MARBLE FLOORS.

Congressman Cooper of Wisconsin Sustains Serious Injury.

Washington, Jan. 20.—It was slippery in the halls of Congress. Representative Mann of Chicago, in charge of the pure food bill, while entering the chamber of the House fell slip to the highly polished marble floor one of the many bottles he carried to be used as exhibits in his opening argument in favor of more stringent laws to prohibit the sale of deleterious food products. The particular bottle contained something that looked like olive oil, and was marked olive oil. It had one of the properties of olive oil in being oily, and several congressmen gave ludicrous acrobatic performances before a scrubwoman and her brush removed the slippery substance. General Bingham of Pennsylvania, the "father of the House," slipped on the spot where the oil had spread over the floor. His feet went out from under him and he fell heavily. The general was helped to his committee room, where it was found he was not injured. In the meantime Representative Cooper of Wisconsin endeavored to walk on the oiled marble with a like result. Mr. Cooper was lamed from his fall. Representative Mann's desk was a miniature store, being covered with numerous cans and bottles containing articles offered for sale as food products. The principal opposition to the bill is based on states rights, the claim being set up that the federal government should not attempt to control the trade within the states, but that each state should be permitted to make its own pure food laws.

Made Their Children Beg.
New York, Jan. 20.—Patrick McCarthy, who says he formerly was a tutor in Greek in a preparatory school in Oxford, England, and his wife were held by Magistrate Crane, charged with using their two children, a boy and a girl, to beg.

Steamer Sinks.
Bridgeport, Conn., Jan. 20.—The steamer John H. Starin, bound from New York to New Haven with thirteen passengers, ran into ice off Bridgeport. She sank on the mud flats. Her passengers were taken off.

The delinquencies of locals in the three anthracite districts is the cause of much criticism among bituminous miners. While only three locals in the big Ohio district were reported in arrears, two in the whole Pittsburgh district, and not a single one in the Indiana bituminous districts, almost a third of the locals in the three anthracite districts were reported in arrears for two or more months, and not entitled to vote in convention. Some of these have settled and will be represented in the convention, but there still remain a large number of anthracite locals in bad standing, and the three districts will not have nearly the voting power they had two years ago.

The scale committee began formulating the miners' demands, to be presented to the operators of the central competitive district, composed of Indiana, Ohio, Illinois and western Pennsylvania, at the joint wage conference, which begins Jan. 23.

KILLS HER OWN CHILD WITH AN AX

Then Takes the Head and Wanders About the House in a Demented Condition.
[Special by Scripps-McLae.]
Pompton, N. J., Jan. 20.—Mrs. Arthur Oswald of Oakland in a fit of insanity on Tuesday beheaded her eldest child, and his pet dog, which apparently had defended the boy who was only four years old. The woman used an axe. Three other children were unharmed. The heads of the child and dog were carried by the crazed woman to another part of the house.

STATE NOTES

A coroner's jury at Fond du Lac rendered a verdict that William Mies, who met death Monday night, was killed by an electric car that was going too fast.

At a special election at Black River Falls a proposition for the city to bond itself and buy the Owens water power was carried by a vote of 4 to 1. St. Peter's Polish Catholic congregation of Stevens Point has decided to erect next summer a combined parochial school and sisters' residence, to cost \$25,000.

They have answered Japan's last note with much diplomacy, and have granted all the demands."

WATER TANK AT EDGERTON BREAKS

Baggage man William Powers Caught Beneath the Falling Timbers and Severely Injured.

[Special to The Gazette.]
Edgerton, Jan. 20.—The water tank at the depot here burst this morning and aside from injuring Baggage Master William Powers very seriously, also struck the express office and moved the entire structure, a frame building, some four feet. The accident occurred when the tank was nearly full. It had a capacity of 250 barrels of water. Mr. Powers was caught beneath some of the falling timbers and badly hurt.

FALL INTO GRAVE SAVES LIFE

Striking Coffin Revives Bridgeport Man's Heart Action.

Bridgeport, Conn., Jan. 20.—Emil Meyers had a startling experience. While attending the funeral of Joseph Carroll, a member of the local lodge of Elks, Meyers, who was taking part in the lodge funeral ceremonies, suddenly pitched forward into the open grave. The casket had just been lowered into the grave. It is said the fall into the open grave and striking the coffin was what saved Meyers' life. He had been ill and the strain of the funeral ceremonies affected his heart.

POPE EXPECTS TO LIVE LONG

Interprets Rumors of His Own Death as a Good Omen.

Rome, Jan. 20.—The rumor of the death of the pope, circulated in Madrid, having come to the ears of the pontiff, His Holiness exclaimed to a friend: "What, already? Leo was left in peace for five years after his election, while with me these rumors have begun at the end of only a few months. It may be a good thing to look at this from a superstitious standpoint, but I am quite the other way and think it may even prolong my life."

HAVE ALL THE COPPER SUPPLY

The Standard Oil Company and Rothschilds Said To Be in a Gigantic Deal.

IT MEANS END OF ALL LITIGATION

Heinze Properties Are Now To Be Reopened and Taken Over by the Big English Company That Has Been Formed.

Pittsburg, Jan. 20.—Control of the copper supply and markets of the world has passed to the hands of the Standard Oil Company and the Rothschilds, according to statements made here by Frank B. Ray, mining expert and confidant of H. H. Rogers of the Standard Oil Company. While Mr. Ray does not say the deal has been closed, he admits that the arrangements were perfected before he left London. This involves taking over of all the Heinze properties in Montana by the British Exploration Company and the end of the disastrous litigation over the Amalgamated mines there. While Mr. Ray does not venture to say what price was paid or is to be paid for the Heinze properties, he does not believe they were sacrificed.

To End Copper War.

It is believed the deal will bring about a cessation of the copper war in Montana and will be the end of all litigation.

Mr. Ray said the plan was the result of the close relations established between the Amalgamated Copper Company and the Rothschilds' interests in Europe, where they control the copper markets. Mr. Ray was of the opinion that the deal has already been consummated, as the details had all been carefully worked out. To further control the copper production the same interests that control the British Exploration Company, while Mr. Ray was in London, completed the details for the consolidation of the British Columbia Copper Company and the Snow

shoe Mining Company under the name of the former concern. The stock of the latter company is all owned in London.

No Raise in Prices.

Through H. H. Rogers, the Standard Oil Company secured control of the Greene Copper Company properties some time ago. Mr. Rogers had many improvements made.

It was not Mr. Ray's impression that consumers will be forced to pay a higher price by these combinations. He said he thought it portended more stability so that the fluctuation will not be so great.

Interests That Control.

Mr. Ray was asked if it was his opinion that the copper-producing properties will be brought into closer relationship than the one now formulating in London. He said he was not familiar with the future plans of the owners of the mines and the selling agencies. He said that from what he had learned the present deal in London was being brought about by powerful interests because of the disturbed condition of the copper market. The fact that the Rothschilds controlled the European copper agencies and properties, and that the Standard Oil Company had secured or intended to secure the American producers and agencies, was the direct result of the litigation brought about in Montana, and it was to stop such litigation that the British Exploration Company is taking hold of the Heinze properties.

PHOTOGRAPHIC LENS HAS BEEN COMPLETED

Telescope for Bruce Observatory at Williams Bay Is Ready for Installation.

Williams Bay, Wis., Jan. 20.—The telescope for the Bruce photographic observatory, a new and important adjunct to the Yerkes observatory, has just been completed at the shops of Warner & Swazey, at Cleveland, Ohio. A small but well equipped building is ready for this instrument, which is to be in charge of Professor Barnard, and with which important results in astronomical photography are expected to be realized.

Official notification has been received at the Yerkes observatory that the annual gold medal of the Royal Astronomical society of London, England, has been awarded for this year to Professor George E. Hale, director of the Yerkes observatory of the University of Chicago. Professor Hale is now in California with his family and will not be able to go to London to receive the medal, so it will be forwarded to him through the American ambassador.

Professor E. E. Barnard of the Yerkes observatory received this medal some years ago in recognition of his discovery of the fifth satellite of Jupiter.

INQUEST STILL DRAGS ALONG

Question of Who Was Responsible Has Not Yet Been Settled by the Testimony.

[Special by Scripps-McLae.]
Chicago, Jan. 20.—An inquiry of the coroner today turned to the liability of the Klaw & Erlanger company, owners of the Bluebeard company. Manager Price of that company has detailed the business arrangements between the theatre and the extravaganza and said he depended upon the theatre for fire protection. Daniel McCullen, whose light caused the fire, was an employee of the Bluebeard company. No one of his assistants complained of lack of fire protection at the fire. The Bluebeard production came from Drury Lane theatre, London, and was fitted with unsafe electrical appliances, which were ordered removed by the authorities in Cleveland. Although manager for fifteen years Price never knew of a law that required fire proof scenery. Fred Brackenbusch, the assistant treasurer of the Irroquois, swore a hundred standing room tickets had been sold at every performance and that the total number of persons admitted to the matinee on December 30th was about 1,800. Only one-third of the center three main exits were open.

TWELVE WOMEN CLAIM TO BE RIGHTFUL WIDOWS

California Judge Untangles the Skein and Awards \$144,000 Estate to Boston Claimant.

Los Angeles, Cal., Jan. 20.—Can a man have twelve widows, grass or otherwise?

This has been puzzling the brains of Californians far more than the "How-old-is-Aunt" question since the death of Charles Hall, never accused of being a Mormon, who left an estate valued at \$144,000, to which an even dozen of widows immediately entered claims.

Some of the widows were young and fair to look upon; some were past the shady side of 40, but each one insisted on being the widow, and all offered some proof of their claim.

The probate commissioner before whom the claimants appeared passed it up to a judge, and he picked out the right widow, who came all the way from Boston, bringing with her other heirs to share the fortune.

The entire estate, which was distributed by the order of the court, goes to Boston. The successful claimants are: Salem D. Charles, Helen A. Bliss, Mrs. Leonard A. Hyde, Myron W. Charles, Fred A. Charles, Jennie E. Skerry, Mrs. Mary L. Charles and Mrs. Sarah F. C. Barrett.

The state received over \$5,000 out of the estate as inheritance tax.

HELD QUARTERLY MEETING OF THE HUMANE SOCIETY

A Delightful Evening Was Spent at the Residence of Mr. and Mrs. Peters-- Reports of Work Done.

Last evening the beautiful home of Mr. and Mrs. John Peters was filled with members of the Humane society and kindred organizations and the first quarterly meeting of the present year was held. The meeting was a successful one, and the history of the society for the past year was read by the secretary, and the report of the secretary and treasurer of the society, immediately after which the Band of Mercy was called to order and a delightful program was rendered by the young members of this latest addition to the ranks of those who pity the life of the dumb animals and believe in treating all animals with kindness. The following was the program rendered:

The Program
Opening hymn, Band of Mercy; piano solo, Agnes Joyce; reading, Arminia Beck; reading, Louise Myhr; duet, guitar and mandolin, Maude Sherman and Eleanor Wright; reading, Mary O'Leary; reading, Ethel Jenkins; reading, Mabel Crossman; piano solo, Edna Sheenmaker; reading, Althea Hutchingson; reading, Ethel Walker; recitation, Lawrence Thiele; piano solo, Hazel Fisher. The readings were all selections from the leaflets of the Humane society and quite appropriate to the occasion.

Denison's Talk
Rec. R. C. Denison then gave a short address to all present on humane work, which was appreciated by all. After this, all present sat down to the tables and refreshments were served by a party of young ladies, and an hour was spent in telling stories and conversation. The young folks reported at this time that their name was the Humane Band of Mercy, and that another one had been formed in the Second ward and named the Fletcher Band of Mercy. Dr. E. F. Woods sent word that the Third ward was not to be left out and he would furnish a full equipment of books, certificates and badges for a Band of Mercy from the Jefferson school.

Quarterly Report
The quarterly report of the Janesville Humane society, given by Mrs. E. F. Woods, was as follows:
The remark is frequently heard, "What is the Humane society for and what does it do?" It has done its work quietly for years past. Visits are made almost daily, but the reports have never been made public for fear of hurting people's feelings, but it seems as though when a person becomes so lost to feeling as to abuse a child or even a dumb animal, that the same person could not be wronged by the public knowing the facts.

It hardly seems possible here in Janesville that such things could happen, as to tie a dog to a post and leave him to starve to death; that a father could abuse his own baby when it was sick, near to death; that a man could knock down his own horse with a stick of wood because it could not draw a heavy load; that a horse could be used to draw heavy loads on the smooth and icy roads without being shod, then turned out to pick up his living as best he could. And yet, these and others have been reported to the society the past three months. Following is a list of cases reported to the society this quarter:

- Cases Stated**
No. 1. Oct. 25.—Horse that had leg broken and set, was driven on a road, as he could not trot. Was whipped and made him go. Owner put in another horse and this one was cared for.
No. 2. Oct. 5.—Horse reported to be abused and pained with club. Parties visited and complaint found to be unfounded.
No. 3. Oct.—Children abused and not cared for. Parents drink most of the time. Children taken away and sent to Sparta.
No. 4. Nov. 25.—Case reported of poison being left in lot and one dog poisoned. Complaint was made Nov. 25, and case set for Dec. 23d, at which time it was adjourned to Dec. 27th. Called and adjourned to Jan. 10th. Called and adjourned to Jan. 15th. January case tried in municipal court, jury trial. Jury disagreed.
No. 5. Dec. 4.—Horse used in drawing sand, had dislocated hip and sore on foot, sand had gotten in sore and it was swollen up very bad. Horse was also in poor condition. On request, owner removed horse and put in a good one.
No. 6. Dec. 1.—Horse drove to delivery wagon, diseased. Mucus running from nostril and very offensive condition. Owner requested to take horse off wagon.
No. 7. Dec. 15.—Same horse reported by other parties as being so weak he could not pull wagon and driver called to make him go. Parties called and it was found that society did not attend to it. They would apply to the court. Saw owner who took horse away and put a good horse in service.
No. 8. Dec. 16.—Horse reported left out from early evening until after midnight, tied in front of building in city. Was not covered at times. Owner notified and no further complaint made.
No. 9. Dec. 16.—Two men arrested for abusing a horse, driving him under the whip, at last throwing him on Milwaukee street. Men arrested and fined \$5 in court. Horse taken to livery stable. The next day it was found that it was so badly injured it had to be killed.
No. 10. Dec. 17.—Case reported, horse ill-used and poorly kept. Agent visited the place and found complaint overdrawn. No complaint was made by society.
No. 11. Dec. 21.—Old horse used for drawing loads, was not shod, hoofs worn down. When not at work was turned out to pick what it could. Notified owner. Dec. 23 complaint

her. Mrs. John Peters reported that she had collected the annual dues, \$1, from the members, as follows:
Members of Humane Society
C. S. Jackson, A. P. Burnham, Stanley B. Smith, Victor P. Richardson, W. G. Palmer, W. T. Van Kirk, E. B. Helms, J. Thoroughgood, W. S. Jeffries, Wm. Smith, L. B. Carle, L. L. Colvin, W. J. Mrs. Peters has turned the money over to the treasurer, holding her receipt for the same.
AMONG THE WORLD'S WORKERS
News Notes From Various Sources of Great Interest to the Workman.
Carroll D. Wright, United States Commissioner of Labor, who lectured recently in Youngstown, Ohio, does not believe in sympathetic strikes. He said in an interview: "I believe the Civic Federation is one of the means towards the solution of the labor situation. The solution is in the understanding of the men and employers. There is no reason why they should not settle all differences without calling out insiders. Arbitration means that both the men and the employers that they were unable to settle their disputes between themselves. Arbitration is alright but I do not believe in compulsory arbitration. It does no good. Nor am I in favor of sympathetic strikes. Strikes sometimes may be necessary. At least they are lawful."

The threatened strike at the Homestead and iron workers to be much shows the wage reductions of the steel and iron workers to be much larger than those announced. These were given as ranging from 5 to 25 per cent. The threatened strike reveals them to be actually as high as 55 per cent.
The news reports from Pittsburgh state that further wage reductions in the iron and steel industry are probable. The iron and steel industries are the leading industries of the country. It is consequently likely that other industries will follow their lead and do, as they are doing.
The most encouraging feature in industrial conditions is found in the resumption of work at factory, foundry, mill and furnace of 60,000 men who have been temporarily idle in Pennsylvania and Ohio.
The American Car and Foundry Co., of Terre Haute, Ind., has closed all its departments except the foundry and reduced the number of employees from 1,000 to 100.
While there is a general resumption at the glass plants in South Jersey there is no work with a feeling of uncertainty as to how long they will be employed.
Because of the riots in Batavia, Ill., as a result of strikes in the different factories there, 60 strikers have been arrested.
The National Malleable Steel Casting Company's works, of Sharon, Pa., have resumed operation, giving employment to 1,200 men.
Street car strikers at Bloomington, Ill., are running hack lines in opposition to the street cars.
Marital law still prevails at Telluride, Colorado, and many arrests have been made.
Cincinnati has organized an employers association to fight boycotts.
The striking Haystack miners, 450 in number, have returned to work.
The master builders of Patterson, N. J., have locked out 1,500 artisans.
Hack drivers at Albany, N. Y., are striking.

ROCKFORD WILL BOWL THURSDAY
The Forest City Bowlers to Meet the Bower City Team on the Evening of That Day.
Arrangements have been completed by Robert Hockett, of the Hockett Bowling alleys, of this city for a match bowling contest between the Rockford and Janesville teams on Thursday evening, January 21, at 7:45 sharp, at the North Main street alleys. The Forest City team is considered one of the finest in this section of the country, having won several games from some of the best clubs in the state of Illinois. The Rockford team is composed of the following players: Roberts, Hall, Welch, Warren, and Needham. The local team will be composed of Hockett, Ruhland, Gibson, Nolan, and Baumann. The game Thursday evening will be called promptly at 7:45 to enable the Rockford players to catch the last car home.

Bright's Disease and Diabetes News
San Francisco, Dec. 9, 1903.
To the people of Wisconsin:
As San Francisco druggists personally acquainted with the facts we are asked to certify to you the curability of chronic Bright's Disease and Diabetes, and however unreasonable it may seem to you yet such is the fact. Up to a year ago we never heard of a genuine case of chronic Bright's Disease nor Diabetes recovering in this city. A great discovery has undoubtedly been made. Many prominent people here have recovered and every one of us whose names are appended hereto have either had recoveries among our customers or have genuine chronic cases now recovering. And the percentage of efficiency seems to be very high, for there are very few failures.

All the conventions will be held in the capital. Railroads have granted a one and one-third rate from all parts of the state during convention week.

MANY BILLS HAVE BEEN INTRODUCED
The Committee Agreed, But Are Yet Unable to Agree on a Set Figure.
According to Arthur J. Dodge, Washington representatives of the Milwaukee Sentinel, there is a strong probability that the house committee on postoffices will not report a bill increasing the salaries of rural letter carriers, as the estimates for the rural service, based on present schedules, show a marvelous increase. Millions are now required to maintain this service. The demand for increased salaries for the carriers is strong. More than 100 bills have been introduced in both houses, on the subject. The committee is agreed that the compensation of the carriers should be increased, but it has been unable to agree on a figure.
The consensus of the opinion in congress seems to be that the carrier should receive at least \$900 a year, but the postal experts regard this amount excessive. They contend that rural free delivery in a few years is certain to become one of the most costly adjuncts of the department, and congress should proceed with great care in adding to the cost of the service. It is already apparent that the committee is opposed to increasing the salaries beyond \$700, and there is opposition to the provision in the Fairbanks bill proposing that the carriers shall be graded, as in the city service. The committee favors a flat rate if any increase is granted, and this policy will prevail if it has a way.

Bright's Disease and Diabetes News
San Francisco, Dec. 9, 1903.
To the people of Wisconsin:
As San Francisco druggists personally acquainted with the facts we are asked to certify to you the curability of chronic Bright's Disease and Diabetes, and however unreasonable it may seem to you yet such is the fact. Up to a year ago we never heard of a genuine case of chronic Bright's Disease nor Diabetes recovering in this city. A great discovery has undoubtedly been made. Many prominent people here have recovered and every one of us whose names are appended hereto have either had recoveries among our customers or have genuine chronic cases now recovering. And the percentage of efficiency seems to be very high, for there are very few failures.

NOT REQUIRED TO BUILD TO MADISON
Substitute Franchise as Passed Merely Stipulates That Tracks Be Laid in City Limits Within Three Years.
In the substitute franchise passed by the city council Monday evening last, requiring the Southern Wisconsin Interurban Co. to build to Madison within three years was struck out. As the franchise now reads they would only be required to lay their tracks within the city limits in that time.
On Monday afternoon Master Howard Gage celebrated his third anniversary of his birth at the home of his parents, Mr. and Mrs. Charles Gage, 203 South Second street. The afternoon was delightfully spent by the little guests and a charming lunch was served to the guests before it was time for them to go home.

FARMERS TO MEET IN NEWARK SOON
INTERESTING INSTITUTE IS EXPECTED.
R. J. COE TO BE CONDUCTOR
Program for the Work is Laid Out—Many Farm Topics Will Be Discussed.
On Tuesday and Wednesday of next week, January 26 and 27th, a farmers' institute will be held at Newark. R. J. Coe of Port Atkinson is to be conductor and he will be assisted by L. P. Marthy of North Freedom, C. E. Matheson of Pewaukee, and K. E. Roberts of Corliss. It is a school for farmers where the topics discussed are of vital interest to the well regulated farmer. The farmers and their families are all asked to attend and every farmer is asked to state his opinion freely in the discussions which follow the reading of papers.
The session opens Tuesday morning at ten o'clock. Mr. Coe has the first paper on fertility. Mr. Marthy follows with one on rotation, and Mr. Matheson closes the morning's session with a discussion of turkeys. In the afternoon the session begins at 1:30. Mr. Coe talks on fruit and Mr. Matheson on hens. Mr. Marthy has his topic assigned as the horse, and Mr. Roberts talks on sheep.
Wednesday Morning
The second day of the session will open with a discussion of clovers by Mr. Coe, followed by a paper on swine by Mr. Roberts and good rows will be talked about by Mr. Marthy. Corn is Mr. Coe's topic and this ends the morning session. At 1:30 Mr. Marthy will tell of the care of milk and Mr. Coe will discuss farm gardens. Mr. Roberts will tell of improved stock and their care, and Mr. Marthy will tell of good feeding.

SCIENCE PREVENTS BALDNESS.
The Fatal Germ and Its Remedy Now Facts of Science.
It is the rarest thing in the world for a man whose hair is not dead at the roots, need be bald if he will use Newbro's Hair-oil, the new scalp antiseptic. Hair-oil destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in Maryland, Black, Butte, Mont., was entirely bald, removed the germ of hair loss, and nature did its work by covering his head with thick hair in six weeks. He had a normal scalp of hair. Sold by leading druggists. Send 10c in stamps for sample to The Herpelde Co., Detroit, Mich.

BIG AUDIENCE WELL PLEASED
With Production of "In the Heart of the Storm" at Myers Theatre Last Evening.
One of the largest second night audiences that the Myers theatre has had for many months assembled last night to witness Hummel's Imperial Stock Co. in "The Heart of the Storm." The repertoire of this company is replete with new and interesting plays, and the productions are well staged and acted. Edwin Deaton in the comedy part of "Sam Glover," the medical student, who uses imagination to create business; Adelaide Melnotte as "Betty Farnum," his sweetheart; and Claude Melnotte as the eccentric, cultured, nervous, were easily the favorites. Edwin Deaton and Kathryn Deaton pleased with their little matinee side between the acts and the singing of the doll's song and dancing of little Grace Deaton scored a big hit. The company appears tonight in "A Daughter of the South." Next Friday night the company will give cash prizes to the best local talent appearing on the stage.

Rheumatism and Liver Complaint
SUCCESSFULLY CURED BY
DR. DAVID KENNEDY'S Favorite Remedy.
Mrs. S. C. Abell, of Roberts avenue, Syracuse, N. Y., says: "For a number of years I have been troubled with Liver Complaint and Rheumatism. I became so ill I could scarcely walk across the floor. One of our home physicians informed me that I had Heart Trouble also, and began treating me for that. His treatment did no good. One day I read of Dr. Kennedy's Favorite Remedy, which I began taking and improved greatly. I have now taken six bottles, and was never so well in my life. I can say nothing but kind words for Dr. David Kennedy's Favorite Remedy, to which I owe so much. I know of another case in which Favorite Remedy restored to health a friend, who was thought incurable."
Dr. David Kennedy's Favorite Remedy is a never failing specific in diseases of the skin and blood. It restores the disordered liver to a healthy condition and corrects constipation. It is a certain cure for the diseases peculiar to women. It cures Scrofula, Salt Rheum, Erysipelas, Nervousness, Loss of Sleep, or that Worn Out Feeling. In cases of Rheumatism, Dyspepsia, Bright's Disease, Gravel, Diabetes and Bladder Troubles, it has cured where all else failed.
If you are not already convinced that Favorite Remedy is the medicine you need you may have a trial bottle sent you by mail absolutely free, by sending your address to Dr. David Kennedy, mentioning this paper.
Dr. David Kennedy's Favorite Remedy is for sale by all druggists, at \$1.00 a bottle, or 6 bottles for \$5.00—less than one cent a dose.
Dr. DAVID KENNEDY'S CHERRY BALSAAM best for Croup, Cough, Consumption, etc. 25c, 50c, \$1.00.

"WE WILL BUY IT BACK"

Peoples Drug Company's Remarkable Way of Selling Mi-o-na, the Flesh Forming Food.

Just ask the Peoples Drug company what they think of Mi-o-na. It will not take you long to ask them, but it will take them some time to tell you all the good things they know of this remarkable flesh forming food.

It is natural for people to doubt, but when the Peoples Drug company frankly offer to buy back any empty boxes when Mi-o-na fails to restore health and increase the weight, and return the full amount of money paid, it silences the doubters and they cannot help but feel that Mi-o-na is an unusual and remarkable preparation. Used for a little while, this flesh forming food will show that it actually furnishes real nourishment, regulates digestion and increases weight.

Weight yourself and then begin its use and the scales will soon show the good Mi-o-na is doing. It gives strength and tone to the digestive organs, makes rich, red blood and puts the whole system in proper physical condition. If it did not do what is claimed for it, The Peoples Drug company could not afford to sell it the way they do, agreeing to refund the cost, 50c, in case it does not give complete satisfaction.

Every one who is thin, weak and out of health, should begin the use of Mi-o-na on these terms, for it costs absolutely nothing unless it makes you well.

WALKS AND RIVER TO BE REGULATED

Alderman Matheson introduced Two Important Ordinances at Meeting on Monday Night.

Alderman Matheson Monday evening introduced an ordinance prohibiting any person from throwing ashes, paper, or refuse of any kind in the Rock river within the city limits, without permission. He also introduced an ordinance requiring that all sidewalks built within the city limits hereafter should be of the concrete, dressed stone, imitation stone, asphalt, paving brick, or asphaltum. Both ordinances were advanced to their second reading.

WILL ESTABLISH NEW QUARTERS

Salvation Army Officers from Minneapolis to Locate in This City.

Captain Brown and his lieutenant, of the Salvation Army who have been in the city for the past few months soliciting funds for the support of the army have met with much success in their work in the lower city. Today Captain Brown received official notice from the army headquarters to go to Escanaba, Mich., and that Captain Wolverson, Lieutenant Marshall and Lieutenant Jensen, of Minneapolis, will come to this city next Saturday and establish permanent quarters in this city where meetings will be held in the future. Captain Brown and his lieutenant will remain in the city until the new officers arrive.

The Illinois Central railway has issued an order that all persons in charge of live stock shipments may ride on passenger trains immediately preceding or following the freight train transporting the cattle. It is likely that other roads will make a similar rule if the test on the Illinois Central shows that live stock shippers appreciate the privilege of riding in passenger coaches instead of freight cabooses.

RHEUMATISM

NOT A SKIN DISEASE.

It is natural to rub the spot that hurts, and when rheumatic pains are shooting through the joints and muscles and they are inflamed and sore, the sufferer is apt to turn to liniments and plasters for relief; and while such treatment may quiet the pain temporarily, no amount of rubbing or blistering can cure Rheumatism, because it is not a skin disease, but is in the blood and all through the system, and every time you are exposed to the same conditions that caused the first attack, you are going to have another, and Rheumatism will last just as long as the poison is in the blood, no matter what you apply externally. Too much acid in the blood is one cause of Rheumatism; stomach troubles, bad digestion, weak kidneys and torpid liver are other causes which bring on this painful disease, because the blood becomes tainted with the poisonous matter which these organs fail to carry out of the system. Certain secret diseases will produce Rheumatism, and of all forms this is the most stubborn and severe, for it seems to affect every bone and muscle in the body. The blood is the medium by which the poisons and acids are carried through the system, and it doesn't matter what kind of Rheumatism you have, it must be treated through the blood, or you can never get permanently rid of it. As a cure for rheumatic troubles S. S. S. has never been equalled. It doesn't inflame the stomach and ruin the digestion like Potash, Alkalies and other strong drugs, but tones up the general health, gently stimulates the sluggish organs, and at the same time antitoxins and filters out of the blood all poisonous acids and effete matter of every kind; and when S. S. S. has restored the blood to its natural condition, the painful, feverish joints and the sore and tender muscles are immediately relieved.

Our special book on Rheumatism will be mailed free to those desiring it. Our physicians will cheerfully answer all letters asking for special information or advice, for which no charge is made.

BEARING DOWN PAINS

3647 Indiana Avenue, Chicago, Ill., Sept. 27, 1902.

I have been a sufferer with almost every kind of female trouble for years, but as long as I could get around and do my work I would not try patent medicines as I had no faith in them.

About eight months ago I had to take to my bed, suffering with prolapsus of the uterus, with bearing down pains and intense pains in the back. My aunt, who came to nurse me, told me of Wine of Cardui and sent for a bottle.

I am indeed glad that the old, for that first bottle started me on the road to recovery. In a few weeks I was out of bed and in three months I was

in better health and stronger than I had been in years. I taken dose now, occasionally, of Wine of Cardui and am kept in perfect health.

Wine of Cardui brings certain relief to women suffering any symptom of female weakness and perfectly regulates the menstrual flow. Wine of Cardui stops bearing down pains by permanently relieving the irritation which weakens the ligaments holding the womb in place. You need not suffer every month if you take this medicine. The periodical discharge will be painless and healthy without continual weakening drains. Wine of Cardui will make your health right and you may treat yourself privately in your own home. Secure a \$1.00 bottle of Wine of Cardui from your druggist today.

NO INTERURBAN.

Evidently the Janesville resident who wishes to go to Madison by an electric line must wait for some time to come. Perhaps in the dim hazy future or score of years a road will be built which will be allowed to convey both passengers and package freight from Janesville, the rising metropolis of Southern Wisconsin, to Madison, the capitol of the state, passing through the cities of Edgerton and Stoughton on their way up and perhaps able to stop at some of the fine suburban residences that are rapidly dotting the road way of the interurban of the future. By their action on Monday night the council practically killed all hopes of the Southern Wisconsin company over building the proposed road. If the statements of the gentlemen who applied for the franchise are to be relied upon no road will be built in the present status of affairs. It is too bad that all this talk of quick transportation facilities for the farmers and suburban residents, pleasant rides through the waving fields of the country with the shopping parcels from the big Janesville stores, is to come to naught. Janesville people, Janesville merchants want an interurban. They want a road and want it badly. Easy transportation for the rural residents with their shopping packages they might desire sent by the interurban line to be dropped off at their home as they passed by are apparently merely dreams of the future. The Southern Wisconsin interurban company asked for a franchise to build a road from Janesville to Madison. The matter was taken under advisement by the council and referred to a committee who in turn held many meetings and drafted a franchise with many changes from the original application. After several weeks of meetings and much talk the council last Monday passed a franchise to the Southern Wisconsin which this road say is so different from their original application that they will not accept it and no road will be built. Here the matter lies. Evidently the council appreciates the want and needs of the people in passing a franchise for the construction of a road but the men who asked for the franchise say the requirements asked for in the new franchise are ones they can not accept and so no road. It is too bad but until the dim future Janesville people who wish to go to Madison will have to ride on the steam cars with cinders and other discomforts or walk.

It does not take much courage to allow the blame for any accident from fire in public buildings to fall on the shoulders of an efficient chief of a fire department but if such a loss comes then would not all Janesville howl.

Judge Luse is sure to be elected. There should be no fight against him. He is a man well worthy of the place and the idea of one man gaining control of the state to suit his ends is more than rank anarchistic doctrine and should be quickly stamped out by an honest vote.

One would think that Ironquils fire with its awful loss of life would have been a warning to aldermen to look to the safety of buildings where the public might be in danger. But now leave it to the state laws to settle. When the fire comes they will be blamed.

The Boers from South Africa are to move to America the land of the free. Do not be too sure of this Mister Boer. America was but not now. The politicians own it now. Why not apply to some ward alderman in Chicago for a colonization plot about election time.

The difference between half past two and three is not much to the Pinkerton of the morning paper when it comes to announcing a fact that is afterwards disputed by all the parties interested.

John Alexander Dowle went to San Francisco but he was not warmly welcomed as they thought he was going to be. In fact no one knew the future Elijah was in the wicked city.

Those English reports make John Bull as very anxious for Japan to sail in and whip Russia off hand. If the truth be known England is afraid the Japs will try to do just this thing.

If a bad fire and a great loss of life occurred in Janesville the grand jury would probably blame the rats. No one else surely. The council has left the state laws to decide.

South Main street and the Second ward will not be made into a stock yards as some people feared. The interurban road will not be built this year they say.

Another bad feature of this proposed Oriental war is that the new crop of heroes will spring up with names to sane man can pronounce easily.

Mr. Bryan is to start a daily paper in St. Louis during the democratic convention. Poor St. Louis. Had enough to have the convention but then the Commoner.

Korea is hardly on speaking terms with the rest of the world now so important has its cellar door become as a sliding place. My but she is a popular Miss.

The word has gone out Roosevelt is to be renominated if Wisconsin republicans can accomplish the feat. No factional fight on this question.

It is up to the fire chief and the state laws to make the public buildings in Janesville safe. The council has decided this question.

Janesville men are talked of the world over. Some of them get their names on matrimonial lists easily with kissing ordinances.

Illinois is having a fierce battle for the governorship. Would it not be funny if a democrat would win the plum after all the talk.

MARKET TALK ON CHICAGO MARKET

Latest Gossip from the Closing Reports of the Windy City's Mart.

Chicago, Ill., Jan. 20.—Wheat: The market opened up with a tremendous trade, commission houses loaded with buying orders and local shorts falling over each other in their eagerness to get out. It was no longer necessary for the bull leader to buy wheat, the shorts took care of that and the story of the session from opening to close has been a constant advance; the only sellers were profit takers and the market was bare of offerings, except at higher prices. The cables were higher, receipts fair, and war news indifferent but after May had crossed 90c the scare became general and news of all description was brushed aside, the excitement keeping up until the close which was at the top price of the day. The technical position of the market is somewhat weakened by the elimination of much of the short interest today but it is unsafe to sell wheat even at these prices. It bulls too easy and has a \$1 look about it.

Proof That There is No Rule or Secret of Long Life.
All very old men cast about for an excuse or apology for being so long in the world. But recently one died at age of 123, and his excuse was that he had smoked and drunk liquor all his life. Another, passing away at 104, had never touched either tobacco or whisky. Some of the hardest drinkers I know cannot bear the taste of whisky or brandy before breakfast. Others must have a dram the moment they get out of bed—if they do not have a bottle under the pillow. There is no rule or secret of long life. "What's one man's poison, signor, is another's meat or drink." The French are not short-lived, yet they are fond of graves and saucers. To some men poison is physic.—New York Press.

SOMETHING GOOD ABOUT THE CITY

Janesville is Reported Throughout the State as a Prosperous Factory Town.

On a blotter advertising pad which is being gotten out by the Y. M. C. A. advertising the state meeting of the association at Oshkosh, March 10 to 13 and which is being distributed throughout the state, facts relating to the factories, capital invested, and the number of wage earners in different localities. Twenty cities are named on the list and the total capital invested is figured at \$549,762,346. There are 8,329 manufacturing plants which employ 114,030. In the table given below the first column is the city, the second number of factories, the third the capital invested and the last the wage earners. As will be seen Janesville ranks well in the list even ahead of Beloit that has bragged so much. That is if the table is accurate. Beloit papers repudiate it and say the man who wrote it had "bats in his belfry" which is a very serious disease if true.

FOOTVILLE HAS A NEW LIBRARY

District West of the City Has a Free Library Assisted by the State.

For a number of years, through the untiring efforts of a few faithful ones, a public library has been supported in Footville. Those having it in charge felt, that although it was a great benefit to some, it was not reaching as many homes as it should. So at the close of last year an effort was begun to make it free to every one and the Library association is glad to announce now, to the people of Footville and vicinity, that beginning next Saturday the library will be free to everybody and every family is cordially invited to come and secure, free of charge, library tickets. The association is assisted by the Free Library commission of the state and frequently will receive circulating libraries from it. However money is needed for rent, janitor, and it is hoped that from time to time new books may be purchased, so in addition to those who have made the free library possible, the Library association would like for others to contribute to this public benefit. Offerings will be received at any time by the librarian.

MERCHANTS TALK ABOUT FRANCHISE

GAZETTE INTERVIEWS A FEW REGARDING COUNCIL'S ACTION.

IS NOT FAVORABLY REGARDED

Most of Them Think That Liberal Freight Provision Should Have Carried—Some at Variance.

When asked as to whether the attitude of the Southern Wisconsin Interurban Ry. Co. towards the substitute franchise had undergone any change, this morning, Dennis Hayes said: "We cannot consider it. If the bill was built on a different proposition but the men on whom we are relying to secure the necessary money to build the road will not let us have it with the freight provision as it stands. Three hundred and fifty business men and merchants here signed a petition that we be granted the full right to carry parcel freight. Some of the aldermen have the presumption to say that these men did not know what they were signing, but we can hardly believe that. To accept the franchise as it now stands we are threatened with a law suit at the start. Webster's dictionary says packages are parcels and parcels are packages. The attitude of the council men was this: 'We think you can carry all kinds of merchandise, such as stoves, carpets, and cans of milk, under our provision, but we don't know what the supreme court would hold.'"

Merchants interviewed. A few of the merchants of the city were interviewed this morning. C. S. Putnam said: "The requirement that the interurban company use compartment cars is a sufficient safeguard for the public. We can't afford to send furniture by express, yet we want quick service. The majority of the men with whom I have talked regarding the action of the council don't like it. It is a certainty that Hayes and Jackman who are vitally interested in the heart of the city are not asking for anything that will hurt the town. The importance of this town as a terminus cannot be overestimated. The fact of its being a terminal for many roads has made Chicago."

Mr. Sutherland's Opinion. "They ought to be allowed to haul all the freight they want to," said Orion Sutherland. "They should have the same rights as the railroads. The competition is needed. The Kings expressed himself in a similar manner. The city is asking more of the interurban line than it did of the Rockford and Beloit road and should concede more. I don't think the farmers would expect to ship hay and stock in the cars." W. C. Hart said that as the railroads had built up the city it might seem that they should have a prior right to freight, outside of parcels and packages. There might be a danger that they would pull out of Janesville if this business was taken away from them. Still, he would have been in favor of granting the interurban company the franchise they asked for.

Dr. J. Bailey. "The interurban company should have what they want in the way of freight-carrying privileges," said Dr. J. Bailey of Bort, Bailey & Co. "We believe that competition is a good thing for the community and that the merchants would profit materially by having this means of shipping. We can see no objection to it, unless it be the protection of railroad interests which are pooled on transit charges and never give anything to Janesville. Why, if the Wisconsin Central railroad wanted to build in here the city would raise \$40,000 as a bonus and get them right away in a hurry. It is the North-Western that amount of money for a cut-off to Evansville just for the purpose of getting into closer communication with that city. But it won't give these people anything. The Southern Wisconsin agrees to use the same kind of cars employed on the Rockford line. There can, therefore, be no possible objection to the freight carrying."

S. C. Burnham. "If the farmer wants to send in his milk cans he ought to have the right to do so," said S. C. Burnham. "If he telephones for a piece of machinery to repair a broken implement he should be permitted to have it sent over this line instead of waiting several days for railroad freight delivery. For the benefit of merchants and farmers a good, liberal franchise should be granted. No fear that our streets will be transformed into stockyards under a provision of this kind, need be entertained. I would as soon have stock transported along the street in front of my house, any way, as some of these fellows they bring up from Beloit."

Baumann Brothers. In Baumann Bros. grocery it was the opinion freely expressed that the interurban company should take what the council was willing to give them, or nothing. "They ought to pay \$10,000 for the franchise as such companies are required to do in other cities," said one of the firm.

WEDDING DAY OF COUNTRY'S FATHER

Anniversary of Marriage of Geo. and Martha Washington Observed Yesterday by Daughters of Revolution.

The wedding anniversary of Geo. and Martha Washington was fittingly observed by the local branch of the Daughters of the American Revolution yesterday. Forty ladies were the guests of Mrs. O. H. Fetters at her St. Lawrence Place home and a literary program, including interesting papers by Mrs. W. G. Wheeler and Mrs. A. P. Lovejoy, was enjoyed. The sum of \$25.00 was applied to the building fund for the new Continental hall.

D. C. was raised. Following the literary and business session light refreshments were served. Among the guests from out of town were Mrs. Wood, Mrs. Lane, and Miss Copeland of Jefferson, and Mrs. E. J. Samuels of Darlington.

WHO WAS THIS MAN AFTER ALL?

He Was Locked in His Store While Asleep, and Told His Wife He Was Working.

Does any one know who was the prominent business man who went to sleep on Tuesday night in his private office and was not awakened until his wife called him up to find why he did not come home to supper? Meanwhile his clerks had put the lights all out, had locked the store up, and were at home enjoying their supper. No one knows? Yet this man told his wife he was busy working on the books and would be up immediately, after she had rung the telephone several times to awaken him. Can you appreciate his wonderment at finding the store closed when he finally woke up? He was quick witted enough, however, not to admit he had been asleep to his wife, but some way she knew it.

Vesuvius Long in Action.

The most recent excavations show that Vesuvius began its work as a conservator of antiquity earlier than the memorable year A. D. 79. During the excavations in the valley of the Sarno, near San Marzano, some most interesting antiquities have come to light. These had been covered up by a volcanic deposit about six feet thick, which points to an eruption of Vesuvius which must have taken place in the seventh century before Christ. The relics include a Greek burying place, archaic Italian tombs and various bronzes and terra cottas.

BUSINESS MEN MEET TOMORROW

TO TAKE UP PROPOSITION OF CANADA SUGAR CO.

READY TO BUILD THIS YEAR

Concern Manufactures Dry Feed from Beet-Pulp—Memomone Falls Co. Sends Out 25 Men.

There will be an important meeting of the Business Men's association at the city hall at half past four o'clock tomorrow (Thursday) afternoon. All members are urged to be present.

L. B. CARLE, president.

A. E. BINGHAM, secretary.

This call was issued this morning and it is expected that there will be a large and representative attendance at the meeting for which it is issued.

Sugar Factory Proposition

The proposed removal of the \$600,000 beet sugar plant of Dresden, Canada, to Janesville will be the subject for discussion. The concern asks for a site and offers to remove its factory here and have it in operation by the time this year's crop is harvested.

The concern asks for a contract of acreage of 5,000 within fifty miles of Janesville and a site of twenty acres. The Paul farm at the foot of South Main street was regarded as one of the most favorable of the localities examined yesterday.

Man of Large Means

Captain Davidson, who was here yesterday in the interests of the Canada concern of which he is president, is a man of large means. He is president of several banks, owns a line of lake boats, and is rated at many millions. The concern he represents has a 60,000-ton capacity and is twice as large as the factory at Memomone Falls.

Manufactures Pulp Feed

The Canada concern has practically decided to move to this city if the site and acreage are guaranteed. In addition to the manufacture of sugar this factory converts all of the pulp into dry feed. It is one of the two institutions in the world that make this use of the by products. Michael Hayes and C. S. Jackman left this morning for Chicago to ascertain what arrangements can be made with the North-Western Ry. Co. for a side-track to the proposed factory.

On the War-Path

The Menomonee concern this morning secured the services of a corps of twenty-five men and sent them out into Rock county to secure contracts with the farmers. It is war to the knife and there is a likelihood that interesting complications will arise when the Canada concern gets down to business here.

DANGEROUS PILLS IN CHILD'S HANDS

State Law Regarding the Distribution of Pills Was Evidently Disregarded.

During the past two days advertising agents for a patent medicine have been distributing free samples of a compound guaranteed to cure all evils, throughout the Third ward. In several instances the packages have been thrown on porches or left on porches and the bell only rung. One Third ward youngster found such a package and ate some of the little cure-all pills. Thus far he has not felt any evil effects except a queer feeling on his insides, but he might have had serious results had he not been quickly treated for a possibility.

There is not only a state law regarding such distribution of free samples, but also a city ordinance which prohibits it because children are apt to get hold of them and eat them. Evidently this law has been evaded in some way by the present distributors, and the matter should at once be investigated by the authorities to prevent future trouble.

NEW WAREHOUSE FOR BROADHEAD

The American Cigar Company Expect to Commence Work About February 1.

One of the largest tobacco warehouses of its kind in southern Wisconsin is nearing completion at Broadhead, Wis. The warehouse is being built by the American Cigar company who have also in the course of erection warehouses at Madison and Stoughton.

The Broadhead warehouse is a modern up-to-date structure and would be a credit to any town several times the size of Broadhead. The assorting room is 250x55 feet, and has ample facilities for employing more than 400 people. The sides are fully equipped with windows, and a skylight on the north side furnishes ample light. The floors are of cement; the heating and ventilation plants are also keeping with the rest of the structure. The company expect to commence business about the first of February.

An elegant three-course supper was served and all present voted Miss Quirk a most hospitable entertainer.

HEMINGWAY HAS VISITED MANY

MAKES REPORT ON THE COUNTY NORMALS IN STATE.

WHAT THEY ACCOMPLISH

The Amount It Costs to Run Them, and Their General Benefit to the Public at Large.

In talking of proposed County Normal, Superintendent Hemingway says: "I take pleasure in giving you the following condensed account furnished me by various principals and county superintendents. Among others the following questions were asked the principal of the county training school and the county superintendent in whose county the school was located. Cost? Is there likely to be an increase or decrease? Do the graduates work in the country schools? Have there been any noticeable improvement in the teachers' work as a result? Does it interfere in any way with the work of the high schools in the county? March county reports: Cost \$3,600 to \$4,000 a year; no advances; 98 per cent. of the graduates have worked in the country schools; wonderful improvement in the teachers' work; does not interfere in any way with the high schools; many graduates, take the training school course; enrollment 56.

Richmond county: Cost \$3,500 to \$4,000; no increase; all graduates, with one exception, teaching; very noticeable improvement in teaching work; no interference with high schools; enrollment 80 applicants. Manitowoc county: Cost less than \$1,000 per year; no increase; all of the 67 graduates but one (married) teaching; marked improvement in the school work; enrollment 57; accommodations for only 40, 80 applicants. Waupaca county: Cost \$3,100 to \$3,600; decrease when school is well on way to about \$3,400 a year and accommodate 45 pupils; started in a year ago with only 19 and no sentiment in favor of the school. This year there is an enrollment of 40; 47 applicants; all graduates teaching and doing good work.

Dunn county: Expenses about \$4,500 (3 teachers); about 95 per cent. of graduates have taught in the country schools; 50 per cent. of the entire teaching force are graduates; enrollment 81. Buffalo county: Expenses about \$3,800; every graduate teaching; very noticeable improvement in the work; no interference with high schools; enrollment 53. Wood county starts this year with an enrollment of over 40; cost will be about \$4,000.

From the above it appears that in every instance the enrollment has increased from year to year. Many instances it is beyond what they can properly accommodate. Where there has been any change in the expense it has been decreased, with the exception of Dunn county where another teacher had to be added because the enrollment was so large. The unanimous opinion seems to be that practically every one of the graduates teaches in the rural schools; and that where the schools have been established long enough so that it is possible to judge of the influence of the graduates' work, the work of the school is in every case much better. There seems to be no friction between the high schools and the training school, which does not in any instance interfere with the High School, as it draws its patronage from a different territory.

TAKEN FROM BED TO LOCKUP.

Edward Wink, aged 18 years, who has been doing apprentice work in the barber shop of H. A. Lavender on River street, fared sumptuously at Morse & Flynn's restaurant after the dance at an early hour this morning. Having finished the repast he proceeded to wreck the dishes and then walked out without paying for food or china-ware. That was about 3:00 a. m. and there is a faint suspicion that the boy was intoxicated. About four o'clock this morning he was dragged out of his bed at his first street lodgings by Officer Fanning and taken to the lock-up. The lad comes from a respectable family residing in Watertown. Other charges will be brought against him unless his parents wish to make a settlement.

MAY LOSE CONVENTION.

It is Alleged That St. Louis Hotel Rates Are Too High.

Washington, Jan. 20.—Many complaints of exorbitant rates charged by the St. Louis hotels for accommodations during the Democratic national convention are reaching Washington and several Democratic national committeemen are talking of holding another meeting to deal with the matter. The hotels are demanding rates of \$6 a day when three or less occupy one room, and \$5 a day when four or more are wedged into sleeping apartments intended for one. These rates are in direct violation of promises made the national committee by the St. Louis delegation, which guaranteed hotel accommodations at the regular rates. Much criticism is heard in Democratic circles. It is believed many people who are contemplating visiting St. Louis during the exposition will be deterred by the experience of those who go there during the convention. Missouri Democrats are growing uneasy over the threat to reassemble the Democratic national committee and are attempting to persuade the hotel proprietors of St. Louis to reduce rates.

Better Crop Estimates.

Washington, Jan. 20.—The National Board of Trade adopted a resolution that a committee, consisting of the crop statistics committee of the board, together with delegates from commercial concerns, be appointed to co-operate with the Department of Agriculture in securing reliable crop estimates. WAR ON THE HARVESTER TRUST

Retail Implement Dealers Demand Lower Prices and Easy Terms.

Kansas City, Mo., Jan. 20.—A clash between the Western Retail Implement Dealers' association, meeting in annual convention, and the trust that controls the harvesting machine business was expected when representatives of the association met the agents of the International Harvester company. The executive board of the dealers, after a discussion of the recent merger, had decided to demand lower prices for harvesters and longer time for payment. Previous to the meeting of the dealers and the agents the annual convention of the implement men's association was called to order and addressed by F. E. Meyers of Ashland, O., president of the national association. The annual address of E. Heeney of Syracuse, Kan., president of the Western association, followed. There are 300 delegates in attendance. Over 3,500 dealers from all parts of the country are present with displays of vehicles.

BETTING ON ELECTION IS LEGAL

Court Decides Man Who Lost Cannot Recover His Money.

St. Louis, Mo., Jan. 20.—In a decision by Judge C. C. Bland of the St. Louis circuit court of appeals the judgment of a lower court in favor of the defendant in a suit to recover \$500 which was paid on an election bet was affirmed. The case was that of A. G. Dooley of Paris, Mo., who in a bet on the result of a primary election put up \$500 with W. R. P. Jackson as stakeholder. Two days after the primary, before the result of the election was announced, Dooley tried to retract his bet, but Jackson would not allow him to do so. Dooley lost and the money was paid to his opponent. The lower court decided against Dooley, who appealed.

TALK OF THE CHICAGO MARKET

Yesterday's Report Regarding the Prices and the General Siding Conditions.

The opening of the market yesterday hardly gave promise that wheat would make the 90 cent mark today. There were buying orders in the hands of commission houses and the session promised to be a bull one. A prominent bull started buying wheat around 89 cents but there was so little on the market that shorts took fright and the price was very easily advanced. There were serious damage reports from all over the winter wheat belt, which helped the market decidedly. Receipts were only fair. War news was lost sight of, such rumors as were floating around seemed to make for peace. It looks as if the country is short of the May and long July and the spread is widening all the time to the detriment of the long side. There seems to be little doubt that the bull leaders can put wheat to any price they desire and we think it rather a dangerous market to be short of. It gets higher every day and looks a purchase on slight reactions.

Corn has ruled very strong today and came within an ace of touching 60 cents. Receipts are light, demand heavy. No contract corn and Iowa getting corn from Nebraska. Sounds funny but it is a fact, buy corn. Oats did not do as well as the other markets and there seemed to be a good deal of realizing. On any sharp break we believe them a purchase.

Provisions were steady with no particular feature. Trade not heavy and principally local. On sharp bulges would take profits but buy back on a good break.

Our January Reduction Sale Continues Till Feb. 1st

The first week of the sale, last week, was a decidedly lively one. . . . People who came bought liberally, fully realizing that they were getting *Bargains*, not imitations. As the sale goes on the interest increases. The second week will no doubt be bigger than the first. Hundreds of last week's satisfied customers are doing much free advertising for us. They found that we are doing even better than we promised.

Not Easily Gulled.

Probably no section of the state contains a better posted lot of dry goods buyers than Southern Wisconsin. All the statements contained in an ad. must be fulfilled. You know what Lincoln said about fooling all the people all the time, &c. It can't be done.

Cloak Buying Time.

January Reduction Prices are attracting many people. Surely it is a chance to economize. No matter whether one bought a cloak in November or buys one now, the garment will be worn for two or three winters as a rule. Only a difference of a few weeks. *Be wise and BUY NOW.* Have cloaks for the grown-ups, the partly-grown, the tender shoots.

Suits at Cost; a good purchase. Bargains in Blankets, Linens, Outing Flannel, Undertwear, Dress Goods, Silks, Skirts, Waists, Prints, Ginghams, Percale, Petticoats, Curtain Goods, &c. . .
